ESG REPORT

Organization: Demo Manufacturing Ltd

Reporting period: January - December 2026

Workflow status: APPROVED

Generated on: 10/14/2026, 9:08:36 PM

ENVIRONMENTAL

Scope 1 Emissions

Value: 125.5 tCO2e

Data state: Provided

Method: Fuel consumption calculation

Source: Sample facility fuel records

Assumptions: Synthetic data for demonstration

Notes: Sample Scope 1 emissions for the reporting period

Scope 2 — Location

Value: 80.5 tCO,e

Data state: Provided

Method: Electricity consumption multiplied by the applicable emission factor

Source: Synthetic electricity bills for demonstration

Assumptions: Synthetic test data; emission factor requires verification

Notes: Sample entry for testing the ESG reporting application

Scope 2 — Market

Value: — tCO,e

Data state: Unavailable

Source details: No saved entry found for this metric.

Scope 3 Emissions

Value: 250.75 tCO,e

Data state: Estimated

Method: Estimated emissions from business travel and transportation

Source: Synthetic supplier and business travel records

Assumptions: Sample emission factors used for demonstration; actual factors require verification

Notes: Estimated Scope 3 emissions for testing the ESG reporting application

Energy Consumption

Value: — MWh

Data state: Unavailable

Source details: No saved entry found for this metric.

Water Withdrawal

Value: — m³

Data state: Unavailable

Source details: No saved entry found for this metric.

Total Waste

Value: — tonnes

Data state: Unavailable

Source details: No saved entry found for this metric.

SOCIAL

Employee Headcount

Value: 200 people

Data state: Provided

Method: Employee count at the reporting date

Source: Synthetic HR headcount register

Assumptions: Fictional data for demonstration

Notes: Sample employee headcount for the 2026 reporting period

Employee Departures

Value: — people

Data state: Unavailable

Source details: No saved entry found for this metric.

Training Hours

Value: — hours

Data state: Unavailable

Source details: No saved entry found for this metric.

Workplace Injuries

Value: — incidents

Data state: Unavailable

Source details: No saved entry found for this metric.

GOVERNANCE

Board Members

Value: — people

Data state: Unavailable

Source details: No saved entry found for this metric.

Independent Board Members

Value: — people

Data state: Unavailable

Source details: No saved entry found for this metric.

Anti-corruption Training

Value: — people

Data state: Unavailable

Source details: No saved entry found for this metric.

Ethics Cases Reported

Value: — cases

Data state: Unavailable

Source details: No saved entry found for this metric.

FORMULAS AND INTERPRETATION

Employee turnover (%) = departures / average headcount × 100. Average headcount = (starting headcount + ending headcount) / 2.

Training hours per employee = total training hours / average headcount.

Board independence (%) = independent board members / total board members × 100.

Recycling (%) = recycled waste / total waste × 100.

Anti-corruption completion (%) = unique eligible people completed / unique eligible people × 100.

These percentages require valid source data. A zero denominator must be handled as undefined, not divided by zero.

LIMITATIONS AND ASSUMPTIONS

This demonstration report uses synthetic data. Missing values are not treated as zero. Source records, evidence, reporting boundaries, calculation methods and approval must be verified.

This report is a preliminary summary, not a verified final ESG report. Carbon calculator integration and independent approval checks must be confirmed.
